DECLARATION REGARDING BSE / TSE

Transmissible Spongiform Encephalopathy (TSE) risk statement

Product	Lactose Monohydrate, grade AlderLac 200M
Lot number	AL-260817-03
Manufacturing site	Alderwood Excipients GmbH, Hafenstrasse 22, Ludwigshafen am Rhein, Germany
Addressed to	Brightvale Pharmaceuticals Ltd.

We, the undersigned, declare that for the product named above:

#	Statement	Status
1	The product is not derived from, and does not contain, material from ruminant species (bovine, ovine, caprine) other than as stated in the table below.	[X] Confirmed
2	No tissues designated as specified risk material (SRM) are used in manufacture.	[X] Confirmed
3	Cross-contamination with animal-derived material is prevented by dedicated equipment or validated cleaning.	[X] Confirmed
4	The manufacturing process complies with the Note for Guidance EMA/410/01 (current revision) on minimising the risk of transmitting animal spongiform encephalopathy agents via medicinal products, and with Ph. Eur. general chapter 5.2.8.	[X] Confirmed

Animal-origin materials used (including processing aids)

Material / source	Species / tissue	Country of origin	TSE risk assessment
Bovine milk (whey permeate)	Milk	Germany	Milk - no detectable infectivity
Rennet / animal-derived enzymes	Not used	n/a	Acid whey process - none used

Whey is obtained from milk of healthy animals under the same conditions as milk collected for human consumption.

Conclusion: Based on the above, the product presents a negligible risk with respect to BSE/TSE. This declaration is valid for lot AL-260817-03 and for 36 months from the date of signature unless the process or raw material sources change, in which case the customer will be notified.

Date: 14 September 2026
